### Expertise & Experience:

- ⇒ Design, wire, trim, install, and troubleshoot home integration systems.
- ⇒ Design, create, and administrate websites using HTML or Flash with basic manipulation of PHP, Java, and CSS.
- ⇒ Written numerous technical flowcharts and instruction guides for end user wireless device installations and setup.
- ⇒ Creation of new company image, including logos, graphics creation, packaging design, color schemes, website design, and marketing documents.
- ⇒ Design, build, setup, and administrate large or small, wired or wireless networks, servers, gateways, firewalls, printers, and websites with multiple hardware, software, and network monitoring tools.
- ⇒ Setup and configure Cisco routers as well as many other brands.
- ⇒ Design, build, troubleshoot, and repair PC's and Laptops (with multiple operating systems if needed).
- ⇒ Setup and troubleshoot many types of wireless network hardware including Access Points, Bridges, Hotspot Gateways, and PCM/CIA devices.
- ⇒ Telephone or on site tech support for various problems such as Network Hardware, Wireless Internet Hardware, Internet connections, Operating Systems, and PC/Laptop hardware installation and setup.
- ⇒ Experienced in using all versions of Windows up to the latest XP Client and Server OS's, Exchange Servers (2000, 2003), Microsoft Office software (Outlook, Word, Excel, PowerPoint, Visio), several versions of Linux OS as web servers, firewalls, and desktop machines, and Mac OSX.

### Other Skills:

- ⇒ Graphics creation, editing and manipulation (layers, transparencies, lighting effects, sizing resolutions, etc) using various graphics programs such as Adobe Photoshop and Jasc Paint Shop Pro.
- ⇒ Audio recording, editing, and compressions of various file types using a variety of hardware and software depending on the desired results.
- ⇒ Video recording, editing, and compressions of various file types using a variety of hardware and software depending on the desired results.
- ⇒ I actively functioned as the central information hub between board members, shareholders, office staff and the technical staff of numerous companies. I routinely spoke with people of various ranges of technical understanding (often all at the same time on conference calls) and I am well versed and experienced in speaking at the understanding level of my audience. My tech support experience has streamlined my skills in this area.
- ⇒ Design, fabricate, and weld metal gates, railing, and signs.

### Recent Websites I Have Built: these examples and more at [FreelanceAdmin.net](http://FreelanceAdmin.net)

- ⇒ [FullSpectrumAV.net](http://FullSpectrumAV.net) (Home Technology Integration)
- ⇒ [HTIvideos.com](http://HTIvideos.com) (HTI How-To Videos)
- ⇒ [AHorseForMe.com](http://AHorseForMe.com) (Horse Classifieds)
- ⇒ [MyIPMobile](http://MyIPMobile.com) (VOIP Provider)
- ⇒ [RZIEntertainment](http://RZIEntertainment.com) (Internet Content Provider)
- ⇒ [FreelanceAdmin.net](http://FreelanceAdmin.net) (Webpage Design/Network Consulting)

### Education:

- ⇒ Years of on the job training in the Home Technology Integration industry.
- ⇒ Years of on the job training as CIO, website consultant and/or primary webmaster.
- ⇒ Years of on the job training resolving 'real world' issues as primary Network Administrator with multiple Wireless ISP's.
- ⇒ Associate Degree in Computer Service Technology from Boise State University (BSU). (1/96-8/02)  
Classes Included: (all with labs as well as theory)
  - Cisco Networking (design, setup, troubleshooting, repair)
  - Network+ (design, setup, troubleshooting, repair)
  - A+, PC (setup, troubleshooting, repair)
  - Electronics (analog, digital)
  - Photocopy (troubleshooting, repair)
  - Computer Peripherals (setup, troubleshooting, repair)
- ⇒ Computer & Peripheral Service Technology Certificate from BSU.
- ⇒ Emmett High School graduate, 1995. (Emmett, ID)

### Unique experiences:

- ⇒ Industry Guest Speaker at Boise State University on multiple occasions.
- ⇒ I've been the onsite network support technician for numerous large Microsoft conferences in Seattle WA, Portland OR, and Boise ID.
- ⇒ I setup and installed the Wireless LAN in JR Simplot's condominium.
- ⇒ I was contracted to fly to Portland Oregon during the 2004 elections to be the onsite wireless network support technician for John Kerry and his news staff during his visit.
